

Clark Forklift Parts

Clark Forklift Parts - Currently, there are over 350,000 Clark forklifts performing worldwide, and more than 250,000 in use in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive models of forklifts, with components covering more than 120,000 specific parts for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark has a phenomenal Parts Supply team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a relentless goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a dominant market position.

Clark has chosen the structure of "Lean Manufacturing" at all of its assembly plants for the reason that this method is particularly economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing facility management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the proficiency and brilliance of their products while minimizing expenses. The contemporary value engineering program combines progressive product improvement and provides improved customer support and service within the industry.
